

Data Sheet Collapsible flexible onion tank PVC

Image of example tank

Manufactured from PVC-coated fabric with a minimum tensile strength of 4000 N/5 cm and a mass of 1100 g per m² material.

Equipped with:

- Inflatable self-rise collar with a pressure relief valve and a $\frac{3}{8}$ " connection for filling, either using a hand pump or pressurized air (with pressure reducer)
- 4 pcs. D-Rings at the base
- hose coupling (Storz) complete with protective hood. Type, quantity and positioning of couplings to customer specification.
- protective wrap-around hold-all and repair kit

Extras:

- Ground sheet
- Double-stroke hand pump with $\frac{3}{8}$ " connection

Holdall with two lifting loops

Extra: ground sheet

Extra: double-stroke hand pump

Article number	Capacity [l]	Dimensions when filled [m] (ØxH) ca.	Packed dimensions [cm] (LxØ) ca.	Nett weight w/out coupling [kg] ca.
120001	1.500	1,9 x 0,6	50 x 30	11
120002	3.000	2,4 x 0,6	60 x 45	18
120003	5.000	3,2 x 1,0	80 x 45	26
120004	10.000	4,0 x 1,0	80 x 60	35
120005	15.000	4,8 x 1,8	100 x 60	44
120006	25.000	5,8 x 1,0	120 x 70	60
120008	45.000	7,8 x 1,0	120 x 75	98

Other sizes available to specification
